### Varieties of forged products

Forged products have a good popular in the city of Derby for many years. They always showed special taste and status of its owner, because in ancient times to afford metal household items, utensils or decorative elements could only wealthy people. The profession of blacksmith was prestigious. The skills metal working is passed down from generation to generation. In such it remains today. Sale of forged metal products. Since, as people learned to extract the metal to use it to your own needs, they began to strive for continuous improvement results. But their types and the technique of almost have not changed. Today in Derby we can distinguish three the individual of the group of the forged products. To the first group belong items are utilitarian in nature. This different things of metal, which serve man in the home.

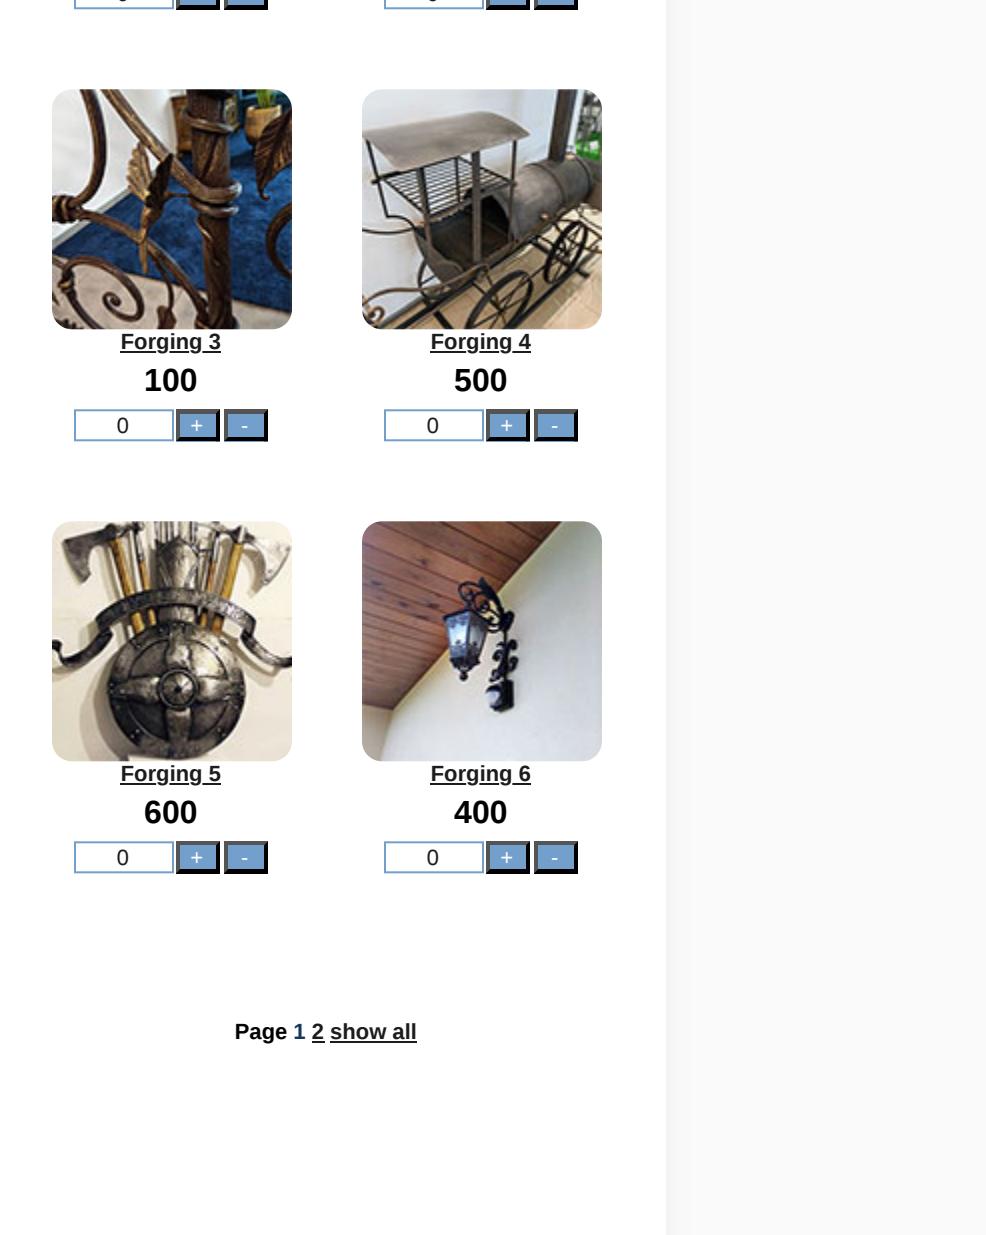

In the group includes everything from basic knives and axes to decorative figurines and utensils, which serve different types of metals. Technolux forged elements. Items to decorate the decor here is not very large in size, have a special grace and a large number of small pieces. The second group may include all forged products in the city of Derby, which finish the interiors and exteriors. Items here significantly greater, but no less graceful. Wrought iron furniture, headbands for the mirrors, the elements of the chandeliers, sconces and floor lamps, stair railing and door leaf. Separately, you can select wrought iron fence and gates, which are not only effectively look in Derby, but also very practical. Beautiful wrought iron gates. A last group includes all products forged type used for equipment and decoration of town. The graceful frames of the benches in the town square, wrought-iron statues and silhouettes for fountains, decorative patterns in metal for street lamps and a variety of items for finishing buildings.

### Distinctive features of forged products

Despite the active development of technical progress the process of creating forged items still comes in manual. Changed only some of the equipment for heating and metal treatment. Machines for cold forging price. So instead of a furnace of a blacksmiths in the city of Derby today employ of a gas burner, and grinding the finished products produced using grinding machines with electric drive. Like every thing manual labor every forged item is unique and original. Items created from metal in the forging process can safely to consider a work of art.

This is especially true of the work of art, in which the blacksmith recreates in the metal compositions for a variety of motives. Wrought iron sliding gate with a wicket. Even two seemingly identical forged item will not be exactly the identical. Each of them is unique and carries particle of the master's soul. Forged products in Derby in different style. They rightly to call it universal. The appearance generated in the forging process of the subject is limited only by the wishes of the customer and has a lot of opportunities for the effects imagination.
